

10 - P

5 pole vault.

5-0

We have a lot of things to make life better, including sports. Sports help us become more active, in addition to helping us reduce stress, have more friends with the same interests. I interviewed a girl who was exercising at the park. She said: "since she exercised, her tooth health has improved a lot, she looks healthier, more energetic and happier than before!" So I think we should exercise effectively to have a good health and avoid some unwanted accidents: eg: Injuries, joint pain.
